“SingleParentingTransformingAchievingRighteously”

Dear Potential Partner,

S.T.A.R. Parents is a non- profit program that provides Spiritual, Relational, Physical Wellness, and Financial Education, Resources and Community Groups that primarily service Single Parenting men and women in often underserved and underrepresented communities.

We are currently hosting resource drives, community distribution events, developing online courses, and a weekly platform, various onsite, virtual and personalized workshops and growth groups, to a wide array of Mothers and Fathers and their children in the metro Atlanta area. S.T.A.R. Parents utilizes a holistic growth model to ensure the parental progress of our participants occurs, and is sustainable, while connecting our organizational mission of implementing knowledge to create empowerment.

We would love to partner with your local business, faith-based organization, and community advocates, to better serve our demographic, which helps the whole community. Some ways in which partners support this goal is: in-kind and monetary resources, programming support, and volunteer high-quality experts and teams that make our Mission a reality.

All partners’ generous donations to our program through time, service and resources are greatly appreciated and valued, as well as the great opportunity we have to promote partners through our platforms and media- which are often connected to locally recognized channels.

Many of our participants are already patrons and supporters of your local businesses and organizations, and we look forward to you now being an official partner in their personal success.

Your effort to help build a stronger community and future for our families’ today greatly influences a large demographic of people, and our society’s *tomorrow*.

We truly value your consideration and believe your contribution will help Parenting people progress, participate, and prosper purposefully. We look forward to hearing from you soon!

With Gratitude,

S.T.A.R. Parents Team
